

# WHITE RIVER MAKES \$6000 SALE AT BURRA

A highlight sale at the SA Merino Field Days at Burra was the \$6000 sale of a young White River Poll Merino ram hogget by the Daniell family, Minnipa and Poochera to Ian Rowett and family, Mernowie stud, Marrabel.

This was believed to be the highest price in the private sales made on the day by various studs. White River 377, pictured here with Wes Daniell and Ian Rowett, is a son of Leahcim 609, purchased in 2009 by the White River and Allala studs from Leahcim for \$24,500, a Leahcim on-property sale record.

John Daniell said they were very pleased with the ram's progeny and how he had blended in with their established family lines and that there were more of his sons on offer at this year's White River sale in August.

Ian Rowett said he believed White River 377 would blend in very well with their type and the bonus was that the ram is a complete outcross for their stud, with a Leahcim background.
